General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemptions does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, D.C., this 30th day of March, 2000.

BILLING CODE 4510-29-P

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

Privacy Act of 1974; System of Records

AGENCY: Federal Mine Safety and Health Review Commission.

ACTION: Notice of new, altered, and deleted systems of records.

SUMMARY: On May 14, 1998, the President directed executive departments and agencies to, among other things, review all systems of records subject to the Privacy Act of 1974, as amended, 5 U.S.C. 552a ("Privacy Act") for accuracy, completeness and to ensure that all routine uses are needed and consistent with the purposes for which the records were collected in each system. The Federal Mine Safety and Health Review Commission ("Commission" or "FMSHRC") has conducted such a review, and now publishes this notice of new, altered, and deleted systems of records.

DATES: Comments on the proposed routine uses for the systems of records included in this notice must be received by the Commission by May 8, 2000. The Commission filed a report describing the new, altered, and deleted systems of records covered by this notice with the Chair of the Committee on Governmental Affairs of the Senate, the Chair of the Committee on Government Reform of the House of Representatives, and the Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget ("OMB") on March 30, 2000. The changes described in this notice will become effective after the 40-day period for OMB review expires on May 16, 2000, unless OMB gives specific notice within the 40 days that the changes are not approved for implementation. The new routine uses that are the subject of this notice will take effect on May 16, 2000 unless modified by a subsequent notice to incorporate comments received from the public.

ADDRESSES: All comments on the proposed routine uses should be mailed to Richard L. Baker, FMSHRC Privacy Act Officer and Executive Director, Federal Mine Safety and Health Review Commission, 1730 K Street, NW., 6th Floor, Washington DC 20006.

FOR FURTHER INFORMATION CONTACT: Richard L. Baker, FMSHRC Privacy Act Officer and Executive Director, Federal Mine Safety and Health Review Commission, 1730 K Street, NW, 6th Floor, Washington, DC 20006, telephone 202-653-5610 (202-566-2673 for TDD Relay). These are not toll-free numbers.

SUPPLEMENTARY INFORMATION: The Privacy Act applies to information about individuals that may be retrieved by a unique identifier associated with each individual, such as a name or social security number. The information about each individual is called a "record" and

the system, whether manual or computer-driven, is called a "system of records." A system is considered altered whenever certain fundamental changes are made to the system, such as whenever certain disclosures, called "routine uses," are changed.

In a memorandum dated May 14, 1998, President Clinton directed executive departments and agencies to conduct a thorough review of all agency system of records for accuracy and completeness. The President specifically directed agencies to consider changes in technology, function, and organization that may have made the systems out-of-date and to review the routine uses published in the system notices to make sure they continue to be necessary and compatible with the purposes for which the information is collected. He also directed agencies to identify systems that may not have been described in a notice published in the **Federal Register** and to publish notices for any changes to the agency systems of records.

In its review, the Commission determined that two of its systems of records are no longer relevant and necessary to accomplish an agency purpose, that the remaining three systems require revision, and that three additional systems of records should be identified and included in the Commission's systems of records. The two systems of records that are no longer relevant and necessary to accomplish an agency purpose are: (1) FMSHRC-04, "Property Management System;" and (2) FMSHRC-05, "Administrative Law Judge Caseload Report." See 49 FR 30668, 30669-70 (July 31, 1984). The property management system of records (FMSHRC-04) contained information concerning the description, value and location of furnishings and equipment. The Commission has found it unnecessary to continue to maintain such records because furnishings and equipment are no longer assigned to Commission employees and members. In addition, the Administrative Law Judge caseload report (FMSHRC-05) is no longer used by the Commission. Accordingly, the Commission is deleting these systems.

The Commission proposes revisions to the three remaining systems in order to update them. The Commission proposes changing the system name of FMSHRC-01 from "Payroll records" to "Pay and leave records," in order to more accurately describe the records included in this system, and to revise the routine uses of records maintained in this system. In addition, the Commission proposes to change the

name of FMSHRC-02 from "General finance and accounting records" to "General finance, accounting and travel records;" to revise that system to include travel records and records pertaining to usage of Westlaw and usage of government credit cards for administrative supply purchases; to update other categories of records included in this system; and to revise the routine uses of records maintained in this system. The Commission also proposes revising FMSHRC-03 to update and more accurately describe categories of records included in this system. Finally, the Commission proposes to update its general statement of routine uses, formerly set forth in the Appendix, 49 FR at 306670.

The Commission identified three systems of records, not previously identified, in which information by individual name or identifier is relevant and necessary to an agency purpose. Specifically, those systems include: (1) Biographical data files on presidential appointees; (2) federal fare subsidy benefit program records; and (3) the Commission's official case files filed according to and retrieved by the name of an individually-named miner. As to the first and second systems, information is retrieved by using an individual's name or other identifying link. As to the third system, information is retrieved from Commission adjudicatory case files through the use of a docket number or case name. In the large majority of cases before the Commission, case names are derived from a mine operator's name or a union. In a small percentage of cases, cases are identified by an individual miner's name, such as when a miner brings a discrimination complaint in an individual capacity under 30 U.S.C. 815(c)(3), or when the Secretary of Labor takes an enforcement action against a miner under 30 U.S.C. 820(c) or 820(g). Included in the third system of records are only those official case files filed according to and retrieved by an individually named miner's name. Accordingly, the Commission proposes adding these three new systems.

In sum, the Commission proposes identifying its systems as: FMSHRC-01, Pay and leave records; FMSHRC-02, General finance, accounting, and travel records; FMSHRC-03, General informal personnel files; FMSHRC-04, Biographical data file-presidential appointees; FMSHRC-05, Federal fare subsidy benefit program records; and FMSHRC-06, Official case files filed according to and retrieved by name of individually-named miner. The systems of records are published in their entirety below.

Systems of Records

FMSHRC-06	Official case files filed according to and retrieved by name of individually-named miner

General Statement of Routine Uses

In addition to the disclosures generally permitted under 5 U.S.C. 552a(b), the Commission may disclose a record or information in a Privacy Act system of records under 5 U.S.C. 552a(b)(3) as provided below.

(1) Routine use for disclosure to the Department of Justice for use in litigation:

To the Department of Justice when: (a) FMSHRC or any component thereof; or (b) any employee of FMSHRC in his or her official capacity; or (c) any employee of FMSHRC in his or her individual capacity where the Department of Justice has agreed to represent the employee; or (d) the United States Government, is a party to litigation or has an interest in such litigation, and by careful review, FMSHRC determines that the records are both relevant and necessary to the litigation and the use of such records by the Department of Justice is therefore deemed by FMSHRC to be a purpose that is compatible with the purpose for which FMSHRC collected the records.

(2) Routine use for other disclosures in litigation:

To a court or adjudicative body in a proceeding when: (a) FMSHRC or any component thereof; or (b) any employee of FMSHRC in his or her official capacity; or (c) any employee of FMSHRC in his or her individual capacity where FMSHRC has agreed to represent the employee; or (d) the United States Government, is a party to litigation or has an interest in such litigation, and by careful review, FMSHRC determines that the records are both relevant and necessary to the litigation and the use of such records is therefore deemed by FMSHRC to be a purpose that is compatible with the purpose for which FMSHRC collected the records.

(3) Routine use for law enforcement purposes:

When a record on its face, or in conjunction with other records, indicates a violation or potential violation of law, whether civil, criminal

or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, disclosure may be made to the appropriate agency, whether federal, foreign, state, local, or tribal, or other public authority responsible for enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto, if the information disclosed is relevant to any enforcement, regulatory, investigative or prosecutive responsibility of the receiving entity.

(4) Routine use for disclosure to a member of Congress at the request of a constituent:

To a member of Congress or to a Congressional staff member in response to an inquiry of the Congressional office made at the written request of the constituent about whom the record is maintained.

(5) Routine use for records management purposes:

Records from a Privacy Act system of records may be disclosed to the National Archives and Records Administration or to the General Services Administration for records management inspections conducted under 44 U.S.C. 2904 and 2906.

(6) Routine use for disclosure to contractors under 5 U.S.C. 552a(m):

Disclosure may be made to agency contractors, grantees, or volunteers who have been engaged to assist FMSHRC in the performance of a contract service related to a Privacy Act system of records and who need to have access to the records in order to perform the activity. Recipients shall be required to comply with the requirements of the Privacy Act.

(7) Routine use to the Department of Health and Human Services ("HHS") parent locator system for finding parents who do not pay child support:

The name and current address of record of an individual may be disclosed from a Privacy Act system of record to the parent locator service of HHS or authorized persons defined by Public Law 93-647, 42 U.S.C. 653.

(8) Routine use for use in employment, clearances, licensing, contract, grant or other benefits decisions by FMSHRC:

Disclosure may be made to federal, state, local or foreign agency maintaining civil, criminal, or other relevant enforcement records, or other pertinent records, or to another public authority or professional organization, if necessary to obtain information relevant to an investigation concerning the retention of an employee or other personnel action, the retention of a

security clearance, the letting of a contract, or the issuance or retention of a grant, or other benefit.

(9) For use in employment, clearances, licensing, contract, grant or other benefit decisions by other than FMSHRC:

Disclosure may be made to a federal, state, local, foreign, or tribal or other public authority of the fact that a Privacy Act system of records contains information relevant to the retention of an employee, the retention of a security clearance, the letting of a contract, or the issuance or retention of a license, grant, or other benefit. The other agency or licensing organization may then make a request supported by the written consent of the individual for the entire record if it so chooses. No disclosure will be made unless the information has been determined to be sufficiently reliable to support a referral to another office within FMSHRC or to another federal agency for criminal, civil, administrative, personnel, or regulatory action.

(10) For purposes of financial audit or internal control:

Disclosure may be made to a federal agency or to members of the private sector under contract with FMSHRC in the performance of a financial audit or evaluation of internal control, pursuant to 31 U.S.C. 501 *et seq.*

SYSTEM NAME:

Official Case Files Filed according to and Retrieved by Name of Individually-Named Miner.

SYSTEM LOCATION:

FMSHRC at 1730 K Street, NW, 6th Floor, Washington, DC 20006.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individually-named miners whose names are used for filing and retrieval purposes of the official case file of cases arising under the Federal Mine Safety and Health Act of 1977, 30 U.S.C. 801 *et seq.* (1994) (Mine Act). Official case files are retrieved by reference to docket number, and in some instances, by case name. In the large majority of cases before FMSHRC, case names are derived from the name of a mine operator or a union. In a small percentage of cases, cases are identified by an individual miner's name, such as when a miner brings a discrimination complaint in an individual capacity under 30 U.S.C. 815(c)(3), or when the Secretary of

Labor takes an enforcement action against a miner under 30 U.S.C. 820(c) or 820(g). This system of records covers only those official case files filed according to and retrieved by an individually-named miner's name.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records in this system include documents and pleadings filed by parties, hearing transcripts and exhibits, transcripts of oral argument, and decisions and orders issued by FMSHRC.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:
